

Integrated Management System (IMS) Policy

Integrating quality, health, safety, environment and facility management systems into an Integrated Management System (IMS), Cofreth commits to provide high performance Facilities Management and Energy Services (FMES) without compromising safety & health of all stakeholders yet upholding environment sustainability

Our commitment

- 1) Deliver high quality, best value services and other characteristics and requirements of FMES as agreed with our customers
- 2) Comply to relevant statutory and contractual requirements of FMES under IMS
- 3) Eliminate potential hazards, reduce environmental pollution & OHS risk as identified under HIRADC and EAIA Lists
- 4) Manage the risks and opportunities identified under IMS Risk and Opportunity Registers
- 5) Encourage staff and vendors to participate in the development of IMS programs
- 6) Instill awareness, develop effective leader, maintain competent and effective workforce through structured trainings
- 7) Continually improve IMS through audits, management reviews and other improvement activities

This policy aligns with the strategic direction of Cofreth and will be revised as necessary and communicated to all stakeholders

Ir. ONG CHING LOON
Managing Director
