

# Executive & Engineer's Dialogue 2015

## Green Environment

By **MASNITA NAWIRE**

Admin, Human Resource Department

For the first time, HR Department organized the Executives & Engineers Dialogue (EED) in a Cinema Hall. This was held on 14<sup>th</sup> March 2015 at the Premium-X Cinema, Hall 12, Sky Park, One City Subang Jaya. This year's topic was "Green Environment".

Ir Ong Ching Loon began with the opening speech followed by his presentation entitled "*Impact of Green Environment on Our Business*".

The other presentations for the morning session was Mr Pablo Lim of ESD and Mr Hew SM & Miss Khaw Bee Lay of BDD, where both departments presented on "*Green FM*" and "*How Green FM Impacts You Today*" respectively.

The much anticipated presentation on the current hottest topic, which is the GST was delivered by F&A Department's beautiful young ladies team of Hani, Suraya & Choong after lunch. As expected, this was one topic that raised the most number of questions from the participants.

The next presenter was from QSHE, Cik Rohana who started by conducting some light exercise of stretching. After which she preceded with her presentation entitled "*Management of Non-conformity in FM*". This was followed by the topic "*Waste Management*" by Faien and Lely.

Operations Department took over after this with Mr Poong & Mr Wong kicking off with their topic on "Green Activities" whereby they showed photos of improvements that they had undertaken at several sites that enabled them to save energy consumption for the Clients. They were followed by several Site Leaders who came forward to share their experiences in handling Green Buildings.

The first Site Leader to come up to present was En. Ibrahim and En Suhaimi on their experience at Digi Lot 43 site with their topic on the "Maintenance of GBI Site", a certified Gold building; followed by En Khamizi on "FMCS of a GBI building under construction" who shared his experience as the Resident Engineer for the new MITI head office under construction and lastly we had En Lukman who share on "Green FM for a Shopping Mall" on his experience in managing Ikano Power Centre (IPC).
